

MAURICIO PAYETTA

WORK EXPERIENCE

CO-FOUNDER AND DIRECTOR, BITHIVE

January 2016 – Present

In 2016 I Co-Founded Bithive, a fully distributed software consultancy firm focused on helping startups to build their products. My main role as a Director is to build and manage the development teams and to make sure that the final product meets world class coding standards.

PRINCIPAL SOFTWARE ENGINEER, DIANRONG (SHANGHAI, CHINA)

February 2015 – Present

Dianrong is the third biggest P2P lending company in China. At the beginning I was part of the front end team, contributing to the development of an intermediate services layer used by all the clients (Web, Android and iOS). I also took the role of Scrum Trainer by giving Agile and Scrum introductory trainings to 11 different teams within the Tech Department. During the last months I started working in a research and development team focusing on Blockchain technologies, specially Ethereum and Hyperledger.

SOFTWARE ENGINEER AND SCRUM MASTER, TOMTOM (BERLIN, ALEMANIA)

April 2013 – January 2015

In TomTom I was part of the Traffic Stats platform team. As a Scrum Master I was the main responsible for the adoption of agile best practices within the team. At the same time I worked as a developer by designing and implementing algorithms and solutions to process TomTom's historic traffic data using grid computing techniques in order to produce useful statistics.

Main technologies: Java, Spring, Hibernate, GridGain, JBoss, MySQL.

ENGINEERING MANAGER, SCALE OPTIONS (TANDIL, ARGENTINA)

September 2012 – March 2013

In addition to the software engineering tasks I took the role of Engineering Manager and contributed to the growth of the engineering team. I participated in the process of selecting new engineers, did technical interviews and trained new employees.

SOFTWARE ENGINEER AND SCRUM MASTER, SCALE OPTIONS (TANDIL, ARGENTINA)

Agosto 2011 – Agosto 2012

As a Software Engineer I took part in the design, development and testing of financial services for Lending Club, the biggest P2P lending platform in the United States. I also played the Scrum Master role on a team of 7 people being the main responsible for the adoption of agile best practices and methodologies.

Main technologies: Java (J2EE), Struts, Spring, YUI, Oracle DB

JAVA DEVELOPER, GRUPO MOST (TANDIL, ARGENTINA)

May 2010 – July 2011

At Grupo MOST I could contribute to the development of J2EE applications for the Buenos Aires City Government and the Tandil City Government. I worked in different projects in both the front end and back end layers.

Main technologies: Java (J2EE), Spring, Struts, JSF, Oracle DB, Postgres
