Letter of recommendation

To whom it may concern

I am writing to confirm that Mauricio Payetta worked for TomTom Development Germany GmbH, Berlin, Germany, from 1 April 2013 to date. His last working day will be the 30st of January 2015.

He was employed as a Software Developer for backend processing of traffic data and traffic analytics in the Product Unit Traffic and Travel Information.

His main responsibilities were:

- Analysis, design and implementation of solutions to provide access to TomTom historic traffic data.
- Development and maintenance of a J2EE web platform.
- Design of map/reduce algorithms that were executed on a Grid Computing system.
- Established an agile process approach within the team using Scrum and doing the Scrum Master role.
- Lead the development by training and transferring knowledge to new team members.

Mauricio is a pleasant and professional person to work with and dedicated to perform well. He also demonstrated the ability to manage his demanding workload as well as to partner successfully with peers/colleagues when required. .
